

Ledramul LT

Ledramul LT is an emulsifier and stabilizer for oils and fatliquors used in the leather and fur industries.

Typical Analysis:

Appearance:	Liquid
Active matter:	38-40%
Combined SO ₃ :	4.0 -6.0%
pH (10% Solution):	7.5 – 8.5

Emulsion Characteristics:

10% Solution in distilled water:	Stable
10% Alum. Sulfate solution:	Stable
10% Chrome extract solution:	Stable

Shelf Life:

Can be stored for one year if kept at near room temperature and in good conditioned store.

Mix well before using

Application:

Ledramul LT imparts maximum opening of the fiber structure together with a cleansing and emulsification of the natural fats. It is applied in the wet work process to speed up the soaking, liming, bating, pickle and tanning process. Ledramul LT is an excellent emulsifier and stabilizer for neutral oils and fatliquors. A combination of Ledramul LT and fatliquors, results in better fatliquor penetration and improvement of the softness of leather. Ledramul LT has many other applications.
