

Ledranol EO

Ledranol EO is a fatliquor blended from synthetic sperm Oil, sulfated Oils and lecithin.

Typical Analysis:

Charge:	Anionic
Active matter:	60%
Combined SO ₃ :	2.5 – 5.5
pH (10% Solution):	7.0 – 8.0

Emulsion Characteristics:

10% Solution in distilled water:	Translucent, Stable
10% in Chrome:	Unstable
10% in Alum:	Unstable
10% in pH3,4,5 Buffer:	Stable

Shelf Life:

All fatliquors are emulsions and may separate over time. This is normal. Mix well before use, and they will perform properly.

Optimum performance and shelf life are maintained when stored near room temperature. Keep from freezing or overheating.

6 - 12 months when properly stored

Application:

Ledranol EO is a very good fatliquor for medium soft leathers. Raw oils, mineral oils and other Ledranol fatliquors are compatible with Ledranol EO. Apply from a float at 6 - 10 % depending on the type of leather. Ledranol EO has good heat and light resistance.
